The School+Family Alliance Handbook for Parents

The School+Family Alliance Handbook for Parents is an essential resource for families seeking to enhance their involvement in their children's education and build stronger partnerships with schools. Developed through the collaboration of Sofia University, Athens Lifelong Learning Institute, Aproximar, Growth Coop, PRISM, and Ege University, this comprehensive guide emphasizes the crucial role that parental involvement plays in a child's academic success and long-term outcomes.

Fostering the Family-School Bond

The handbook explores key areas essential to fostering a strong school-family bond. Topics include effective communication with educators, understanding children's rights, and providing practical tips for improving relationships with teachers. Additionally, it examines how parents can actively engage with school curricula, get engaged in school-based decision-making, and advocate for their children's needs.

Reduce Early School Dropout

Acknowledging that parental involvement in children's education is vital, the handbook offers practical advice, theoretical insights, and strategies to strengthen the relationship between home and school, ultimately reducing school dropout rates.
