

PRESS RELEASE 4

NATIONAL WORKSHOPS LAUNCHED ACROSS EUROPE TO PROMOTE THE SCHOOL+FAMILY ALLIANCE INITIATIVE

SCHOOL + FAMILY ALLIANCE

[August 2025]

Since June 2025, a series of national workshops is taking place across partner countries to raise awareness and promote the outcomes of the European initiative **School+Family Alliance**. These workshops aim to spotlight the project's impactful results, while strengthening collaboration between schools and families to combat early school dropout. The workshops represent an unique opportunity to bring together teachers, trainers, researchers, educational authorities, and parents to explore the potential of inclusive education methodologies and their role in creating more supportive, cooperative, and engaging learning environments.

Through the national workshops in Bulgaria, Italy, Greece, Portugal, Spain and Turkey, participants are provided with access to innovative tools and strategies designed to foster inclusive, student-centered learning environments.

The School+Family Alliance Consortium acknowledges that inequality in access to quality education—often driven by socio-economic disadvantage and insufficient school policy—is a common concern across Europe. Striving for inclusion must be a fundamental commitment of every educator.

The transnational implementation of the School+Family Alliance reflects both the urgency and the opportunity for Europe to lead by example on the international stage.
